Asia-Pacific	4%
America	2%

## TURNOVER BY PRODUCT CATEGORY

Fragrances	44%
Essential oils	28%
GMP/ Active ingredients	15%
Flavours & Aroma chemicals	12%
Others	1%

## ESSENTIAL OILS

They are natural.  
They are versatile.  
They are good for body and soul.

As one of Europe's largest supplier essential oils are our core business:

- Many years of experiences
- Large portfolio with different qualities
- Having our own distillation and rectification units allows us to standardize products according to the customer's requirements
- Exclusive collection of ECOCERT-certified products

## ABOUT QUALITY

We apply the highest standards in all areas of our operation: in research and development, in analysis and sensory science, sales and marketing, logistics and supply chain, and manufacturing and processing.

We have one of the most advanced production facilities in the industry and use particularly low-impact separation methods in purification and standardization.

Because 85 percent of our processes are automated, we can guarantee maximum proportioning and blending precision.

Our products: first-class quality to guarantee the success of our customers.

## GMP / PHARMA

As a GMP-certified company we offer natural essential oils of the highest quality and purity suitable for e.g. capsules, cough syrups, suspensions, coatings or nutraceuticals.

Manufacturers of pharmaceutical products must rely on the purity of raw materials:

- GMP-compatible quality management system
- Highest standards of safety in our premises, at our production site, in our production processes and hygiene measures.
- Validated processes and complete documentation
